

## *European Commission, Erasmus+ programme*

### *«MYSUN» project*

#### *Kick-off meeting*

A delegation from UNIGE participated, although only "online" given the limitations connected with the health emergency, in the kick-off meeting of the "MYSUN" project held at the University of Alicante from 4 to 7 March, within the Erasmus + KA2 CBHE program. The delegation was composed by Prof. Federico Delfino and Silvia Siri, Dr. Paola Laiolo, all from the Savona Campus, and by Mr. Angelo Musaio of the International Cooperation Office.

The MYSUN project is promoted by the European Commission Agency EACEA (Education, Audiovisual and Culture Executive Agency) in the scheme of the Erasmus+ program aimed, among others, at improving the "Capacity Building in Higher Education" of the Partner Countries external to the European Union Member States. The MYSUN acronym corresponds to "**Malaysian Sustainable University Campus Network**".

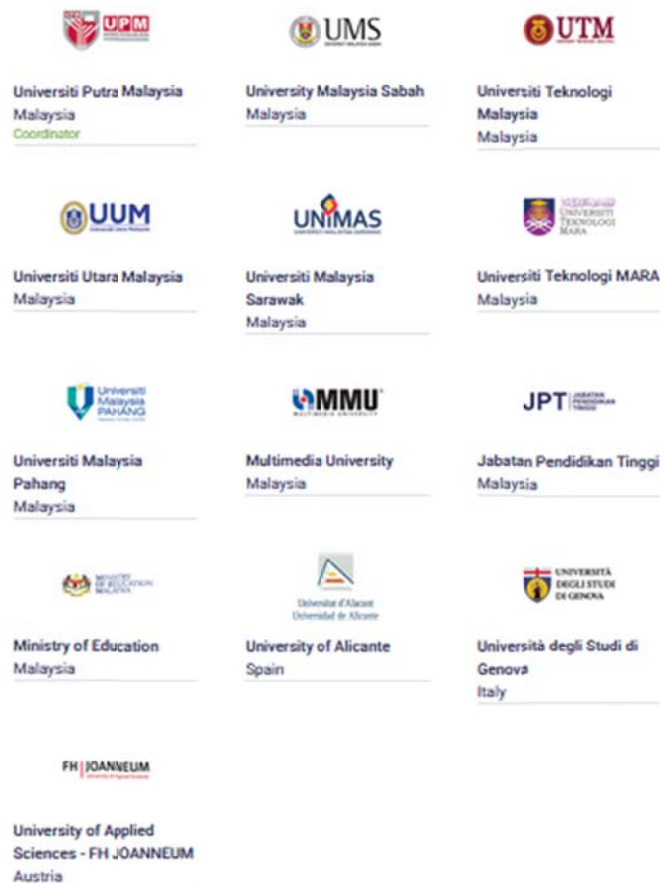

MYSUN aims to promote Malaysian university campuses as "living laboratories" for sustainability and energy efficiency.

It intends to achieve this by strengthening the human capacities in university campuses' sustainability and energy efficiency in Malaysia and developing a platform to promote and support a culture of sustainable HEI campuses in the Malaysian higher education system through the establishment of the MYSUN Network and the delivery of a pilot MOOC on sustainability in HEI campuses.

The MYSUN project brings together 9 Malaysian universities from around the Country, as well as 3 European universities (Universidad de Alicante, Spain; FH Joanneum Gesellschaft MBH, Austria; Università degli studi di Genova, Italy) and the Ministry of Education Malaysia.

UNIGE team, anyway participating to the whole set of project activities and exploiting the experience of the Savona Sustainable Campus, will be leader of the specific Work-Package n. 4 "Institutional Strengthening", aimed at setting-up in each of the partner Malaysian universities the Sustainability Offices or improving the existing ones, with the support of the Malaysian Universities top-management, as tools of boosting the development of a sustainable campus culture in the Malaysian Higher Education system at all.
